Get to Know Women in Engineering

Women in Engineering (WIE) is a college-wide program dedicated to providing a welcoming and supportive environment for female students through professional development programming, advising, and networking opportunities. For more visit: http://wie.engineering.illinois.edu/

Daily Campus Visits are for those interested in taking a tour of campus and learning about the University of Illinois. After registering to attend a daily visit, you can sign up for a WIE Meet and Greet from 1:15-1:45pm that day. During this meet and greet, current women from various engineering majors will be available to share their experiences as an Illinois Engineering student and answer any questions you might have.

Orange and Blue Days are prospective student visit days. Come learn about the WIE Program, opportunities on campus, and talk with current women engineering students during a WIE reception. To sign up, first register to attend an Orange and Blue day, express interest in studying any of our engineering disciplines, and then you will find details of the WIE reception on the Orange and Blue Days agenda. We hope to see you soon!

GAMES Camp is a chance to spend quality time as an Illinois Engineer. Girls’ Adventures in Mathematics, Engineering, and Science (GAMES) Camp is a summer program held on the university campus for academically-talented rising ninth through twelfth grade girls interested in math, science, and engineering. Alongside women in these disciplines, girls will explore engineering through demonstrations, presentations, and fun, hands-on activities. For more information on the GAMES application, visit: http://wie.engineering.illinois.edu/k-12-programs-resources/gameswyse-camp

WYSE Camp, or The Worldwide Youth in Science & Engineering Camp, is a summer program held on the university campus. It is a co-ed, week-long residential camp for high school students interested in learning about different engineering disciplines through demonstrations, presentations, and fun, hands-on activities. For application information visit: https://wyse.engineering.illinois.edu/summer-camps/

To register for these events visit: https://engineering.illinois.edu/admissions/visit-campus

Featured student organizations

Women in Computer Science
Women in Computer Science (WCS) is a non-profit educational student group under the University of Illinois at Urbana-Champaign Computer Science Department. The organization is dedicated to supporting the efforts of young women, who are pursuing a career in computer science or show an overall interest in technology.

Girls Who Code
CS @ ILLINOIS hosts a chapter of Girls Who Code, a club that allows middle school and high school girls to explore coding in a fun and friendly environment. The goal is to inspire, educate, and equip girls with the computing skills to pursue 21st century opportunities. You can email questions to cs-outreach@illinois.edu.
